

Dear Farmer,

May we take this opportunity to wish you a Merry Christmas and a Happy and Healthy 2020. We have had a busy 2019 and would like to thank clients for their continued support over the past year. We are looking forward to a more settled 2020, however like the rest of you we have little knowledge on how Brexit will affect the practice, should we ever leave the EU, so watch this space! As always we will keep you up to date with our bi-monthly newsletters and via our facebook page.

SUPPORT YOUR LOCAL INDEPENDENT VETS

Before purchasing wormers, coccidial control, fly control, vaccines etc. from large corporate stores why not ask us to carry out a price comparison. We always try to be competitive with other local Animal Health retailers and we can often match or beat the price on such products. Speak to Lottie or Ashley on 01626 833023 if you would like us to help save you money.

WINTER HOUSING

It's not too late to think about pneumonia. If you are having a problem, it's still worth giving us a phone call and having a chat about intra-nasal vaccinations as these have a faster onset. Prevention is better than cure!

Alongside vaccination it is key to maintain as dry as environment as possible, keeping a fresh air flow running through the sheds and having an outlet for warm, foul air to escape.

If treating poorly cattle for pneumonia always treat with an anti-inflammatory as well an antibiotic course. The signs to look out for are reduced feeding, raised temperatures (above 39.5°C), increased breathing rate and effort, heads down and looking depressed, coughing and nasal discharge.

CHRISTMAS AND NEW YEAR SURGERY OPENING TIMES
